

Delivery Services Canada

10:30AM

If you want next morning delivery but don't need your package there first thing, choose our 10:30AM service, an economical alternative to our 9AM service. Purolator offers mid-morning delivery to more destinations in Canada than any other courier. For an additional charge, your parcel will be delivered by 10:30AM next day, guaranteed. That means, if it's not there by 10:30AM, you receive a full refund of the transportation charges.*
